

6th November 2020

Dear Parents and Carers,

During this half term, our Year 5 classes will be learning about the Maya civilisation. From next week, our children will be involved in some Design Technology lessons. During these lessons, we will be looking at Mayan architecture and designing and constructing our own version of the impressive Mayan pyramids! We are excited to see our children get the opportunity to use a variety of Design Technology equipment. As our lessons require the children to construct a strong and stable version of the Mayan pyramids, we will be using equipment such as wood, glue guns and junior hacksaws, to ensure our children get the best experience. Before the use of equipment such as junior hacksaws and glue guns, our children will be fully briefed on the strict safety expectations they must follow. During their use, our children will work at a designated teacher table and receive direct assistance and constant supervision from their teacher. This will ensure that safety is paramount.

It promises to be an exciting week!

Thank you

Miss Jones and Mr Tune.
