

ART

- Make a collage out of a variety of materials.
- Make a model using different materials like plastic, card, wood...

SCIENCE

- Research everyday materials that are used in the home.
- Explain how some materials change i.e. sand can be changed to glass.
- Test different materials for a purpose i.e. Is it waterproof?
- Research natural and man-made materials.

WRITING

- Write a report about an object. Include what it is made out of and why this material has been chosen.
- Produce a fact file about everyday materials and how suitable they are for their purpose.

Everyday Materials

Remember:

You can present your work however you like.

It can be a poster, a booklet or something you have drawn or made.

Complete 1 piece of homework or more if you like.

YOU HAVE THE WHOLE HALF TERM TO WORK ON IT.

Please return completed work by 8th February 2021 😊

PSHE

- Create a recycling poster, encouraging people to do this.
- Research how plastic in the ocean/sea is dangerous to animals/creatures.

Geography

- Research which materials we recycle, why and how.
