Dear Parents/Carers,

Welcome Back!

I hope you all had a fabulous Easter break and are enjoying the initial ease in lockdown restrictions.

This week, the children have entered school with big smiles on their faces and settled back into the routines of school life very quickly - it has been a joy to see and they are a credit to you.

I would like to remind you of the COVID Government Guidelines when dropping off and picking up your children from school in order to keep our community safe.

Have a lovely weekend.

Mrs Burrows

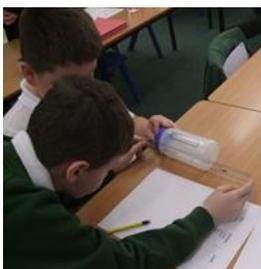

In Reception, we have started our new topic 'Animal Rescuers'. We have really enjoyed learning in our new role play area 'The Vet's', exploring different jungle animals in the small world and investigation area and discussing what pets we have or would like at home.

In Year Five, we have been learning about life cycles of plants and animals. We have enjoyed observing the life cycle of caterpillars. They were so tiny when they arrived and now they are in their chrysalis and will emerge as butterflies soon. We are excited to see this and release them in the forest area!

In Year Three, we have started our new Maths unit on measurement. We completed an investigation in our classroom where we estimated the length of different objects in the room and then we measured them in centimetres, using our rulers, and compared these results with our estimates to see how close we were. We really enjoyed this! As part of our magnets topic in Science, we have also designed a game that had to include the use of magnets in some way. We have had a great first week back!

WELCOME BACK

It is so lovely to see all the children back in School this week, enjoying learning, and seeing their friends and teachers.
