Dear Parents/Carers,

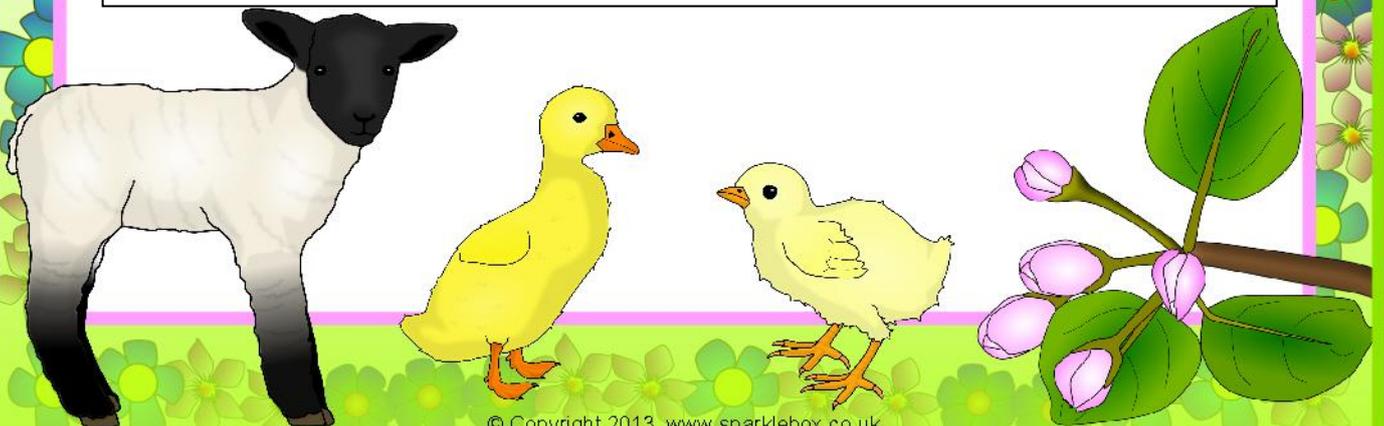

Well what a week! I just want to say a big thank you to all of you for bearing with us in regards to the rise in Covid cases. I know that your child may have had an unfamiliar face teaching them this week but we have gone to great lengths to keep the school open which I hope you can appreciate.

Today has been 'Red Nose Day' and I am sure that all the children have had a great time!

Have a lovely weekend in the sunshine!

Kind regards

Mrs Burrows

Reception

This week in Reception we have been learning all about instructions so that we can trap a dinosaur! We have been working together, playing different instructional games and even created our own dinosaur trap.

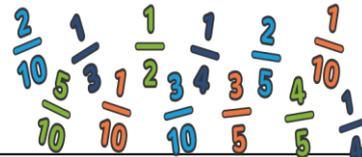

Year 5LC

This week, Year 5 have finished writing their biography about Greta Thunberg; the young Swedish climate change activist which links to all on our work on Eco-Schools.

Their writing really is amazing!

In Maths, we have been working on fractions, improper fractions and mixed numbers.

The children have learnt so much that they can now add and subtract all types of fractions.

Year 3 Forest School

Year 3 have enjoyed ten weeks of Forest School. The leaders have all commented on the excellent behaviour and team work skills of the children. We have had an amazing time building dens, designing magic wands, searching for wildlife and participating in a range of games. Well done Year 3!

Key Stage 1

Year 1 and Year 2 have started their History topic all about explorers. We have posed lots of questions that we would like to find out about explorers and also learnt some new words which are linked to this topic. This week, we have started to learn all about Neil Armstrong and placed significant events in his life on a timeline. We are looking forward to learning more about him and compare him to another explorer, Christopher Columbus.

Nursery

In Nursery we work hard to develop the children's Personal, Emotional and Social skills (PSED).

Turn taking in play is an area that lots of children have found tricky, especially after Covid-19 Lockdowns. We use a giant sand-timer to help everyone recognise when their go has finished and it is 'Sharing Time'. This gives a visual clue which can help young children understand the passing of time. It is delightful to see this happening without any adult support. Well done Xander and Ava!

HAPPY BIRTHDAY

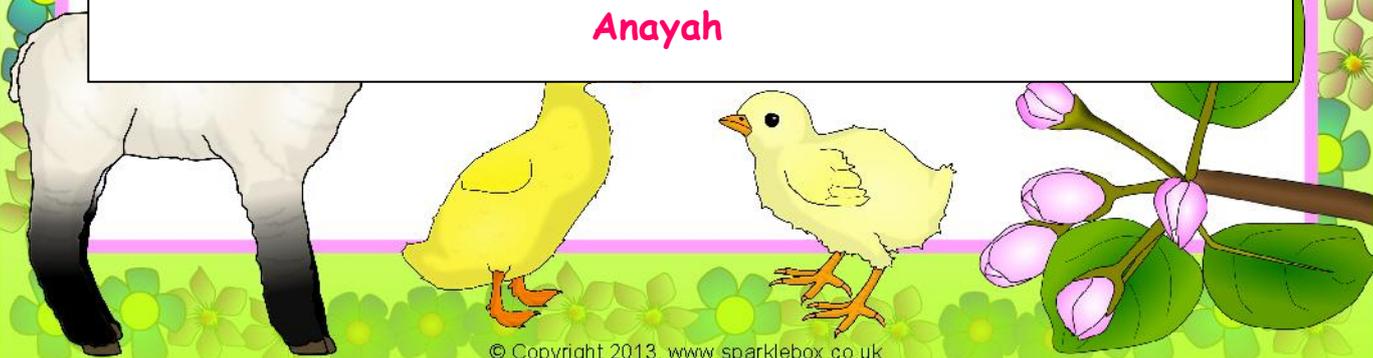

TO

Ella
