Dear Parents/Carers,

What a fabulous start to the final half term before the Summer holidays.

It has been lovely to see all the children back in school enjoying their learning and meeting their friends.

The children have started their new topics and some have enjoyed a visit to the University of Manchester to participate in Science investigations - they had a great time and their behaviour was exemplary.

Today, all the children celebrated in 'Peace Day', thinking about all those people in the world who are suffering at the moment.

Take care.

Kind regards

Mrs Burrows

Reception

This week in Reception we have started our new topic "The Brilliant Bug Ball". We have been learning all about the life cycle of a caterpillar and reading the story of "The Very Hungry Caterpillar". We have been writing what we would like to eat if we were the caterpillar and using our number bonds knowledge to problem solve!

Year 6

We enjoyed a visit from Greater Manchester Fire and Rescue service. We learnt about how to stay safe near water, anti-social behaviour, the equipment fire fighters use and we even got to squirt the water hose- Miss Jones enjoyed getting her payback and wetting us!

KS1

This week KS1 had lots of fun making biscuits for our Design and Technology food project. First, we looked at a range of different biscuits and thought about what makes them healthier. Next, we designed our own healthy biscuit and thought about what ingredients we would need. Finally, we each made our own biscuit adding different fruit!

Nursery

Mark Making (pretend writing) is such an important part of learning to read and write.

The children often present us with 'menu's'/shopping lists and in Jaxson's case he wanted to add a "M for Monday and a 1" to the back of his picture. I'm sure you'll agree it's a super effort!

Eco-Schools

Chloe and Jacob produced this excellent Jubilee Wildlife Garden over the Whit holidays. Thank you for all your hard work. I think that everyone would agree that it looks fantastic in the Forest Area. I wonder what insects will visit!

LKS2

Some of our Year 4 children attended the Great Science Share for Schools at the University of Manchester. This is a big event held in 18 countries on the same day. The children presented their experiment, which investigated the best drinks for good teeth health. The children also ran their own mini toothpaste experiment on the day. They had a wonderful time and were fantastic representatives of our school.

HAPPY BIRTHDAY!
