Dear Parent/Carer,

What another fabulous week in school; the children have been outstanding; in their behaviour, manners and attitude to learning. We are all very proud of them and they are a credit to you.

Our School Councillors have been elected and I am sure they will contribute to improving our school even further.

In addition, our Eco-Monitors will be elected next week. So everyone, including the children, are all working very hard and are involved in the decision making within our school.

Have a lovely weekend!

Mrs Lancashire

EYFS

The children have continued to enjoy their activities both in and out of the classroom. They have worked hard on recognising their colour group. Thank you for your support with this.

EYFS enjoyed showing our classrooms to their parents on the open morning and afternoon. Thank you for visiting.

All children should be coming home with a book and a Reading Record this week. We hope that you enjoy sharing this book together.

KS1

In Geography, KS1 have been busy learning about the local area. This week, we have enjoyed drawing our very own map of the local area. We discussed what is needed in a map and how we could make it easy and clear to follow.

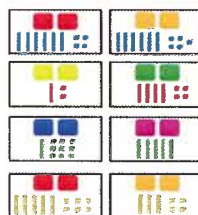

This week, children in KS1 are excited to be bringing home the writing bag! Each evening one child from each class will be selected to take home one of our special animals. In each bag, there will be a story and a book to write in. Children are encouraged to complete a piece of writing in the book with the animal. This could be a poem, a diary entry or even a story about the animal! We cannot wait to find out all about the adventures the animals go on.

LKS2

In Maths for the last 2 weeks, we have been consolidating our learning and learning new things about number. We have been partitioning numbers in the hundreds and the thousands. We are moving on to partitioning numbers in different ways.

We have also been excited to start our new History topic all about the Romans. I am sure the children will be coming home to tell you all about it.

Upper Key Stage 2

This week, the children in Year 5 and 6 have really enjoyed starting their Science and History topics. They began their Science by identifying what they already knew about classifying animals and microorganisms as well as identifying what they want to find out. They demonstrated their ability to remember prior learning and made great lists about what they want to know. In History, the children have started to learn about what life was like before the Industrial Revolution and how Britain had many cottage industries.

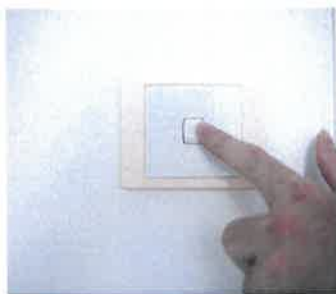

ECO SCHOOLS

As part of our Eco-Schools initiative at St Elisabeth's, we will be sharing a useful Eco-Friendly tip each week.

Eco-Tip of the Week

Turn off the plugs at the wall for any appliances that are not in use.

This could save up to 10% on your energy bill each year!

BIRTHDAYS

Happy Birthday

to

Thea

Oscar

Harry

Alfie

Harry

Archie

Have a lovely day!

SUPERSTARS

	Good Behaviour	Reader of the week	Top Learner	
Year 1	Ava	Farah	Lala	For her excellent drawing skills of a map in Geography!
