Dear Parent/Carer,

Thank you for all your generous 'chocolate' contributions towards our Christmas Fair; it is very kind of you.

This week saw a professional photographer visit school to take photographs for our website. I will let you know as soon as they are available to view.

On Tuesday, we had a visitor with disabilities; Bart Gee, who led a Whole School Assembly and provided workshops throughout the day for the children. Despite his disabilities, Bart was able to play the piano and write beautifully. He truly was an inspiration to us all. If you would like to find out more about Bart, please visit his website: www.breakinglimits.co.uk.

Have a lovely weekend.

Best wishes

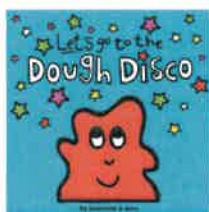

Mrs Lancashire

EYFS

In Maths this week, Nursery have been finding things that are shorter and taller than themselves. Reception have been investigating the number 6.

We have read our new book 'How to Catch a Star' and answered questions about it. We even made our own collage stars.

The children are thoroughly enjoying our Dough Disco sessions which helps develop strength in their hands.

Key Stage 1

This week in Maths, Key Stage 1 have been completing their learning of addition and subtraction. Year 1 have been learning how to use a number line and Year 2 have been solving missing number problems! All children in Key Stage 1 also thoroughly enjoyed a disability workshop led by Bart!

Lower Key Stage 2

This week in Science, the children have had a super time drawing their own skeletons and then identifying all the bones on our visitor from Reddish Vale High School - Harry Bones! In Maths, we have completed our learning about Area and we are now learning about multiplication and division.

UKS2

In Upper Key Stage 2 this week, we have enjoyed a visit from Bart Gee. Bart was born with a physical disability called Arthrogryposis. Doctors said he would never walk, and may never even sit up. However, we had the pleasure of sharing in his achievements including a performance on the piano and watching him compete in a triathlon! Bart also gave UKS2 a chance to experience how he writes in a special workshop, and he challenged the children to experience the limits of his movements in a physical challenge in the hall. What an amazing day!
