Dear Parents/Carers,

Happy New Year to you all and welcome back. I hope you have had a great Christmas and New Year.

I would like to take this opportunity to thank you for all the Christmas gifts you gave me - it is very kind of you.

It is lovely to see all the children back in school again, looking so smart and so eager to learn.

Have a lovely weekend!

Best wishes

Mrs Lancashire

EYFS

We have had a wonderful week back in School. It has been lovely to hear what the children did over the Christmas break.

We have started our topic on 'Hot and Cold Places'. The children have enjoyed exploring the igloo and dressing up for cold, winter weather as well as hot climates.

P.E this half term is gymnastics. The children have demonstrated a range of different shapes.

Key Stage 1

The children in Years 1 and 2 have had a very busy start to the Spring Term! In Maths, Year 2 have started their unit of work on money and have been learning how to count in pounds and pence. Children in Year 1, have been exploring place value of numbers to 20. In History, we have started our topic on Florence Nightingale and in Science we are continuing our learning of animals including humans and looking at their different offspring.

Lower Key Stage 2

Year 3 and Year 4 children have started their new Geography topic all about Brazil. We are really looking forward to gaining lots of knowledge about Brazil and the world and develop our skills in locating places on a map, globe and atlas. So far, we have recapped our learning of the names of the continents, oceans and all about the equator. We made our own globes using balloons to show where we would find each continent.

WELL DONE!

Upper Key Stage 2

Year 6 have made an excellent start to this term. They have particularly enjoyed learning about ratio in Maths especially using Skittles to find different ratio patterns. (The majority of the children ate these on their way home on Tuesday!) The children have learnt to express patterns as a ratio and a proportion of a whole.

Attendance

This year we are having a focus on attendance.

It is essential that your child comes to school every day. This is where they will learn the skills they need to equip themselves as they move through education and become confident, independent and responsible global citizens.

Keeping your child away from school when they are well enough to be here will have a negative impact on them.

So please, if it's a school day, send them our way!
