Dear Parents/Carers,

Well, what a chilly week with sub-zero temperatures and snow! All the children really enjoyed having fun and playing in it.

Some of our children have thoroughly enjoyed participating in handball with David, a coach from Stockport Handball Club.

In addition, some children have participated in NSPCC Workshops where they learnt all about speaking out to stay safe.

Have a lovely weekend.

Best wishes

Mrs Lancashire

EYFS

What an exciting Tuesday we had! The children thoroughly enjoyed playing in and exploring the snow. We had great fun building our class snowman and finding items to use as a nose, eyes and hands! We had a great discussion as we watched it melt.

In Maths, the children have been learning about one more and one less than the given number and in Literacy, they have written some amazing messages to the whale.

By now, everyone should have received their Seesaw log in. We shall look forward to using this platform to share photos of your child in School. Please share achievements at home too.

KS1

This week, Year 1 and Year 2 have enjoyed discussing our favourite celebrations as part of our RE lesson. We shared what special occasions we celebrate in our houses and how we celebrate them.

In Art this term, we are focusing on two artists- Beatrix Potter and Georgia O'Keefe. This week we have practised using water colours and tried hard to blend and mix colours together.

Lower Key Stage 2

This week, Year 3 and 4 have got off to a flying start in their Science and Geography topics. In Science, we have been classifying animals by their characteristics and thinking about how we group them. In Geography, we have been learning about climate zones and comparing the UK and Brazil. Did you know that whilst Stockport has been having very chilly sub-zero temperatures, people in Brazil have been enjoying hot, sunny days at 31°C?

WELL DONE!

Upper Key Stage Two

This has been a very exciting week in Upper Key Stage Two - we have been scientific investigators through the medium of electricity! We have created various circuits, using: a motor, a switch and a light bulb and explored what the outcome would be.
