Dear Parents/Carers,

It has been lovely to see all the children back in school this week after hopefully, a great half term.

Their behaviour has been excellent as has their attitude to learning - well done!

All the children are enjoying their learning; please see below for more information.

I hope you all have a lovely weekend!

Best wishes

Mrs Lancashire

### EYFS

It was lovely to hear all the fun that the children had over the half term break. We enjoyed listening to them sharing their news.

This half term our theme is 'Growing'. The children have really enjoyed visiting our role play Garden Centre. They have been deciding on the prices of items that are on sale and have been writing price tags.

In R.E, we recapped our learning about Christians and churches. The children could recall that you would find pews, beautiful, colourful windows and crosses. We then met Imran, a Muslim boy, who was very excited about visiting the Mosque.

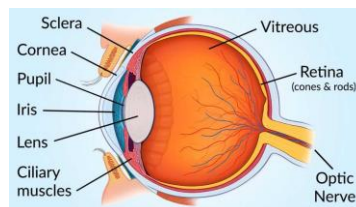

### Lower Key Stage 2

This week in LKS2, we have started our new topics in Geography and Science. In science, children have been identifying different electrical items that are powered by mains and battery. In Geography, we have carried on our learning about Brazil by identifying the characteristics about the rainforest. The children were shocked at the variety of plant and animals that live there.

### Upper Key Stage 2

Year 5 and 6 have made an excellent start to this term. They have started their new topics in Science and Geography topics. The children have identified what they already know and what they want to find out. In Science, they have learnt about the parts of the eye, and their function, creating superb scientific, labelled diagrams. They were amazed to learn that the eye sees everything upside down but the brain turns the images the correct way up!

## ATTENDANCE

### WINNERS

Year 2D

99%

Year 4B

98%

WELL DONE!

## Key Stage 1

Year 1 and 2 have had a fantastic first week back at school. We have started our new topics in Geography and Science. In Science, we looked at the human life cycle and compared the different stages. In Geography, we have learnt how to label the different parts of a compass.

We also learnt a handy mnemonic to help us remember them! Never, Eat, Shredded, Wheat!
