Dear Parents/Carers,

Welcome back!

I hope you have all had a great Easter. It has been lovely to see all the children back in school, playing with their friends and enjoying their learning.

This week has seen Christians in Schools visit and the children have participated in workshops focusing on the current RE topics such as 'If God is everywhere, why do we need places of worship?'

Please may I remind you that the school day begins at 8:50am and ends at 3:15pm therefore, it would be most helpful if your child/children were punctual. Thank you.

Have a lovely weekend.

Kind regards

Mrs Lancashire

## ATTENDANCE

Y2D - 94%

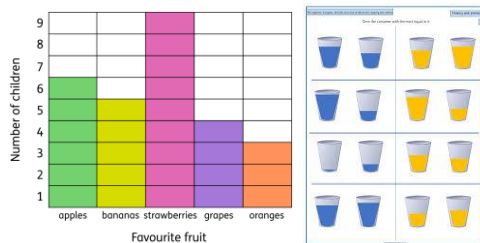

Y3/4H - 96%

Well done!

## Key Stage 1

The children in years 1 and 2 have had a great first week back at school. In Maths, children in Year 2 have been learning all about statistics. We have explored tally charts, bar diagrams, tables and pictograms. In Year 1, have been exploring capacity and volume of different containers!

## EYFS

The children have had a wonderful week back. We have thoroughly enjoyed hearing their Easter holiday news. It sounds like they all had lots of fun!

The Nursery children have thoroughly enjoyed playing in our Role Play Area which has become a vet surgery. They have been caring and kind in looking after all the poorly animals. Nursery have loved singing 'The Grand Old Duke of York' and completing the actions too.

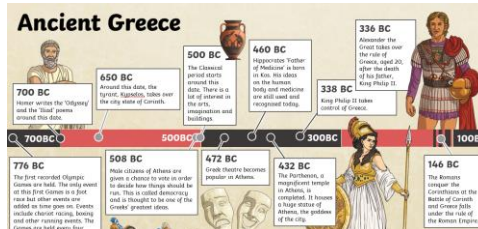

Reception has been working hard on exploring the numbers 11, 12 and 13. They have also written some fantastic sentences using their phonic sounds.

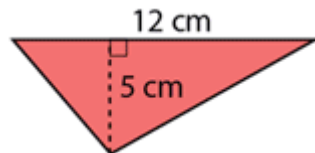

## Lower Key Stage 2

Lower Key Stage 2, have had a fantastic start to the Summer term. In History, we have started our new topic on the Ancient Greeks and started by creating a timeline of the most significant events of the Ancient Greek era. We also discussed what we already knew about the Ancient Greeks and what we would like to find out by the end of the topic!

## Upper Key Stage 2

Year 5 and 6 have made an excellent start to the Summer term. In Maths, Year 6 have been focusing on calculating the area and perimeter of rectangles, compound shapes and triangles. They have learnt to apply formulas:  $l \times w = \text{area of a rectangle}$  and  $(b \times h) \div 2 = \text{area of a triangle}$ . In Year 5, the children have been interpreting data from graphs as well as plotting line graphs from data they have been given. There are many superb mathematicians in Upper Key Stage 2!

**HAPPY BIRTHDAY!**
